

E46C03 52.246-9004 PRODUCT VERIFICATION TESTING (JUN 1998)

DLAD

Old code: E13

(a) References: The applicable documents are the issues of Federal Acquisition Regulation (FAR) clause 52.246-2, "Inspection of Supplies—Fixed Price," and ANSI/ASQC Z1.4-1993, Sampling Plan and Tables for Inspection by Attributes, which are in effect on the date of solicitation for awards resulting from Invitation for Bids and the date of award for all other contractual actions. These documents form the basis for the Government's right to perform product verification testing (PVT) of this product. FAR 52.246-2 is hereby incorporated by reference into the contract if not otherwise called out in the purchase document.

(b) The contractor is responsible for ensuring that supplies are manufactured, produced, and subjected to all tests required by applicable material specifications/drawings specified in the purchase description of the contract. Notwithstanding any other clause to the contrary, and/or in addition thereto, the Government reserves the right to conduct PVT to ascertain if any or all requirements of the purchase identification description contained elsewhere herein are met prior to final acceptance.

(c) On any given contract, the Government may require PVT through a government designated testing laboratory on the contract or production lot at government expense. Testing will consist of chemical and/or mechanical/dimensional conformance tests as the Government deems necessary. When material under the contract is designated by the Contracting Officer/Administrative Officer for each test, the government inspector will select a random sample from the contract or production lot, and send the samples to a designated laboratory for testing. Where origin inspection is specified, the contractor agrees to make available, at the Government's request, at the manufacturing facility, subcontracting facility, and/or final point of inspection, the quantity selected by the contract administrative office quality assurance representative to verify that the entire lot tendered meets the requirements of the contract. The Government shall be permitted to select such samples at random from the production lot tendered for acceptance.

(d) [This subparagraph pertains only to contracts and bilateral purchase orders.]

(1) The PVT samples will be sent, by the Government at government expense, to a government-designated testing laboratory for product verification. The Government will notify the contractor of the results of the testing within 15 working days of receipt of the samples by the Government. If the Government fails to act within the period set forth herein for notification, the contracting officer shall, upon timely written request, equitably adjust, under the Changes clause of this contract, the delivery or performance dates and/or the contract price and any other contractual terms affected by the delay. The Government is not required to accept/reject the supplies tendered until after receipt of the PVT test results.

The Government shall have the option to require the contractor to screen the entire lot tendered for any defects noted by the PVT testing. Any defects found shall be corrected

before retendering the lot for acceptance by the Government. Further, the Government may subject this lot to additional PVT testing. If the Government disapproves the lot tendered for acceptance because of a failure to pass the PVT, the contractor shall be deemed to have failed to make delivery within the meaning of the Default clause of this contract. In such case, the Government reserves all rights to remedies to which it is otherwise entitled by law, regulation, or this contract.

(e) [This subparagraph pertains only to unilateral purchase orders.]

(1) The PVT samples will be sent by the Government and at government expense, to a government-designated testing laboratory for product verification. The Government will notify the contractor of the results of the testing within 15 days after receipt of the samples. If the Government fails to act within the specified time period set forth herein for notification, the contacting officer shall, upon timely written request from the contractor, incorporate FAR clause 52.243-1, "Changes Fixed-Price", into the purchase order, and equitably adjust the delivery or performance date and/or the price and any other terms affected by the delay. The Government is not required to accept/reject the supplies tendered until after the PVT test results.

(2) The Government shall have the option to require the contractor to screen the entire lot tendered for any defects noted by the PVT. Any defects so found shall be corrected before retendering the lot for acceptance by the Government. Further, the Government may subject this lot to additional PVT. If the Government disapproves the lot tendered for acceptance because of a failure to pass the PVT, the Government has the right to reject the entire offer, thereby releasing the parties from further obligations under the purchase order.

(End of Clause)
